Joint Essentials for Dogs

A comprehensive solution aimed at proactively meeting the often times hidden challenges of our dogs as they age.

Dosage Schedule: To be taken with meals. Dogs 25 lbs or more – two tablets daily. Dogs 25 lbs or less – one tablet daily.

Joint Essentials for Dogs is a comprehensive solution designed to help assist your dog control the pain, stiffness, and decreased range of motion caused by osteoarthritis.

Joint Essentials contains nutrients that can also maintain healthy joints and reduce inflammation. It helps lubricate the joints and helps in the production of collagen, the material that forms tendons and ligaments needed for joint stability.

- Studies have shown that by taking a 1000 mg daily dosage of glucosamine (for large dogs) joint health can be improved significantly.
- Our glucosamine is the best-absorbed form of glucosamine. - taken from the exoskeletons of lobster, crabs, and shrimp.
- *Joint Essentials* is chondroitin-free. No conclusive studies show a direct benefit.
- To the contrary, a widely quoted UK study has shown a link between chondroitin and mammary cancer in dogs.
